Pair Of Candlesticks In Walnut Northern Italy Late 16th Century Early 17th Century.

1 200 EUR

Period : 16th century

Condition : Bon état

Material : Walnut

Height : 107cm (97cm à la coupelle)

Description
-------------

These natural walnut candle sticks rest on a base made up of two crossed skids with an ogee profile, the shaft is columnar at the base and has a baluster in the upper part, the cup is massive (slots) and the points are made of wood . These sober and solemn models are uncommon, their non-ostentatious nature suggests that they probably come from a private chapel.
