A Small Arte Povera Box 18th

1 600 EUR

Period : 18th century

Condition : Très bon état

Material : Other

Width : 19.5

Height : 17.5

Depth : 16.5

Description

Very beautiful aqueous box with bronze handle and entrance with its key
Arte Povera is an inexpensive decoration technique imitating 18th century lacquerware. It consists of cutting out existing decorations on a sheet of paper and sticking them on the surface to be decorated.

The composition is then covered with numerous layers of varnish to ensure its solidity. As its name suggests, arte povera has the advantage of being less expensive and allows the craftsman to decorate his creations without knowing painting.
