### Description

Interesting and rare Zande mask from the DRC, we find certain characteristics of these tribes, the nose and the triangular scarifications, the eyes are just open slits, and what is rare on African masks... a slight smile!

Zande objects are rare because these tribes were considered cannibals and experts in witchcraft, arousing fear they were rarely approached by Westerners!

Beautiful patina, height 23 cm, hardwood.

Do not hesitate to contact me for any information, transport information, negotiations, etc.
