Garden Gates

500 EUR

Period : 19th century

Condition : Bon état

Material : Wrought iron

Description

Here are some photographic examples of vegetable garden gates collected during our visits and research of old materials. Renaissance Concepts is at your service to offer you, depending on its stock, its latest finds of vegetable garden gates which will enhance strolls in your parks and gardens.

You should plan a budget of 200 to 400/500 Euros for a simple gate in good condition. Amount which can reach several thousand euros for prestigious and high quality models.

We work in collaboration with teams of "Compagnons du Devoir" masons who can create, on request, a set of stone arch doorways in order to highlight an exceptional gate.
