Description

Rare LEGA crest with 4 faces called "Sakimatwematwe" Semi-hard wood height 31cm Beautiful patina of use and kaolin highlight Wood cracked in places without seriousness but which I point out so as not to be criticized This Quadri-face statue is the archetype of extremely evolved Léga artistic conceptions. The figure has several heads also testifies to the incapacity of anyone to act alone. It represents an ability that high-level Bwami members should possess as a result of the initiation process: to see in many different directions and to be wise and impartial.
