Description

Lamp mounted on a gilded bronze candlestick in the Louis XV Rocaille style, model designed by Juste-Aurèle Meissonnier, 18th century sculptor. The style is very eventful, the twisted decor is decorated with plant motifs. Finely chiseled, it is enhanced with mercury gilding. The switch to electricity was made without drilling, it can at any time return to its function as a hand candle holder. The round lampshade is decorated with exotic vegetation. Electrification up to standards!
