

Murano 8 Large Tasting Glasses In Blown Glass With Gold Inclusions

800 EUR

Period : 20th century

Condition : Très bon état

Material : Glass

Description

Murano 8 superb tasting glasses in blown glass with gold inclusions. The rim decorated with a double gold fillet, twisted leg with inclusions of gold sequins and gold fillet at the feet. A large capacity of 55cl Height: 16 cm Ø at the rim: 7 cm Weight of a glass: 150 grams Superb condition for these 8 glasses. Finesse and elegance are there, all the know-how of the master glassmakers of Murano. A magnificent jamb with its gold glitter and a clear rim. A large capacity and a nice grip. I sometimes specify 1 to 2 millimeters of difference from one glass to another, this is the result of the artisanal work and the complexity of the blown glass.
