

Miner's Eight-sided Rave Lamp

700 EUR

Period : 19th century

Condition : Très bon état

Material : Metal

Length : totale 44 cm

Diameter : 12 cm

Description

We present this eight-sided miner's rave lamp. In fact, when they have eight sides rather than rounded, it is because it is a supervisory lamp dedicated to underground miners in the Saint-Etienne mines. Ours is in a magnificent state of conservation. The rooster is more paunchy than an ordinary round and flat rooster. (E23)
