### Description

Beautiful and very rare bronze metal panel by Giovanni Michelucci. The high relief, in its executive dynamism, depicts a female body that is born and merges at the same time with the roots and trunk of a tree, themes dear to the artist and recognizable in his graphic art of the mid-900. The work in question is one of the most original, both for the choice of material and for the expressed symbolism. Measures : 156 x 45 cm
