Description

Rare white opaline pendulum, gilded and chiseled bronze frame decorated with two entwined dolphins. Their tails support the spherical upper part in fluted white opaline which houses a gilt bronze dial with Roman numerals decorated with a frieze and a medallion of flowers. The dolphins lie on the oval body with vertical grooves. The whole rests on a gilded bronze base decorated with a frieze of palmettes supported by four claw feet. Revised wire suspension mechanism.
Charles X period.(1820)
In good general condition; discreet cracks under the bronze dial.
