Nice Pocket Watch

190 EUR

Period : 20th century

Condition : Très bon état

Material : Metal

Diameter : 5 cm

Description

We present this pretty pocket watch with patterns around the edges of both sides. On one side in the center of the medallion in relief a naked woman carrying water and on the other side still in the center in a medallion "the fox and the crow" but without the cheese, it is my inspiration which makes me say this . This dual case watch works perfectly. (E23)
