Stanislas, then to Monsieur, brother of the king and the Duke of Artois, but he left his functions to devote himself entirely to botany. He participated in the creation of the Nancy Plant Garden and gave courses in botany and natural history. From 1770, Buc'hoz published numerous works of botany and natural history such as a Natural History of Animals, Plants, Minerals and Natural Productions of France, a Veterinary Dictionary of Domestic Animals and a Natural History of the Plant Kingdom which is rewarded by the Academy of Sciences. Work on the mineral waters of France published without author's name. Good condition.
