Saint Louis Girandole Crystal 2 Arms

450 EUR

Period : 20th century

Condition : Etat d'usage

Material : Crystal

Description

Saint Louis magnificent Girandole with 2 light arms in molded crystal. Height: 44.5 cm Width between the 2 arms: 25 cm Ø base: 15 cm Weight: 2kg 540 Good general condition for this splendid piece, note some small accidents of time in particular chips on the tassels including 2 missing and a small chip at the back of the saber. I specify all these vagaries of time but they remain minimal for this piece from the beginning of 1900. The whole thing is very elegant with this sublime baluster foot decorated with eggs topped with a twisted saber.
