

## Fireplace Trim, Art Nouveau - Late 19th Century

1 200 EUR

Period : 19th century

Condition : Parfait état

Material : Marble

Width : 29

Height : 35

Depth : 13

### Description

Elegant Fireplace Set composed of a clock and 2 storage compartments, from the Art Nouveau period. The clock, in red marble carved in an ogive shape, with curves flaring downwards, presents on the front a black marble veined with white in an oval shape, surrounded by a pearl, on which the dial is placed, as well as a wine pattern of leaves and a bunch of grapes. This ornamentation, in gilded bronze, is also found on each foot. Two cuts using the same red and black marbles veined with white complete this Trim: the contrast between the varieties of marble creates a harmonious palette, which will undoubtedly enhance the room in which you choose to place this beautiful set. \*\*\*\*\*  
Period: Late 19th Century Excellent condition.  
Complete movement, without guarantee of
