Description

A pair of chiseled cast bronze andirons And wrought iron bar Large section (2.5 by 2.5 centimeters) A pretty and astonishing "dolphin" model With large, very stylized "balls"... From the end of the 17th century From the SOUTH-WEST - FRENCH In good condition except for a lack of iron (see photo). I can have the lack added by an ironworker (count 50EUR excl. VAT) This lack of course does not interfere with stability They have a difference of one centimeter in length And have a difference of 1 centimeter in height Which proves that 'they were made manually... Weight...10 kilos
