Description

Burgundy bonnetière in Walnut opening on the front via a molded door. 18th century Crossbar in the center of the door in the same spirit as the molding in the upper part. The upper crosspiece is carved with acanthus leaves with a basket in its center (symbol of marriage). The sides of the bonnetière are paneled. The interior of this bonnet is made up of 3 shelves. The bottom rail is molded and scrolled. This piece of furniture has a large storage capacity and is ideal for rooms with modest surface areas. We revised it and discolored it (to bring it back to raw walnut) in our workshop.
