

Pair Of Neo-classical Corners In Blond Oak

3 900 EUR

Period : 20th century

Condition : Bon état

Material : Oak

Description

Pair of corners in blond oak, mesh, opening with two doors opening onto shelves.

The low door opening by a third of the height, the high door by the remaining two thirds, give the piece of furniture a beautiful layout in its proportions.

The architecture of the furniture is reinforced by the paneled sides framing the doors and making it possible to give volume by not remaining on the same plane as the facade.

They are topped with a triangular dentil cornice with a broken pediment reminiscent of ancient architecture.
