

Pharmacy Scale

560 EUR

Period : 20th century

Condition : Bon état

Material : Mahogany

Width : 73cm

Height : 61cm sans les abots

Depth : 31cm

Description

Very pretty pharmacy or laboratory scale from the beginning of the 20th century. I think it is complete, but there are certain elements for which I have not found the location (see photos). It rests on three adjustable feet which rest on three shoes. The set, in mahogany, is in very good condition.
