Description

A series of 6 table cutlery So it's 6 soup spoons and 6 table forks... In solid silver One was remade to the later Elle model, Controlled with the neck brace 1st title (950/1000) With the same coat of arms... All cutlery is engraved with an armory, a coat of arms Topped with a knight's helm And a count's crown The model is called VIEUX PARIS where UNIS PLAT is a little rarer than with fillet. .. Especially in series (because I have mismatched ones in stock) Same series: it is for the same model, same goldsmith and same period The series is controlled with 18th century hallmarks at the general farmers (i.e. 950/1000) Otherwise in good condition with small wear and deformation without seriousness... The teeth of the forks are very correct I am waiting for a response to be more precise at city and goldsmith
