Description

The author and writing of this beautiful work seems to be the work of the surgeon Maître Andouillé, who would soon become the first surgeon to King Louis XVI, as mentioned in the text on page 554 at the end of the work, which specifies the date 1734.

Jean-Baptiste Antoine Andouillé du Tremblay was born in Paris on September 1, 1718, in the parish of Saint-Eustache. He studied at the Collège de Saint-Côme in Paris.

This handsome surgical manuscript belonged to Monsieur Bergeron, master of surgery at Mugron (Landes department); several annotations attest that the book was his property in 1790.

This book contains a wealth of information in
chapters and sub-chapters...

I think you really need to have it in hand to
realize its interest and value. It's a real mine of
information, and the writing is very well done.

For your information, I also own the Livre de
visite of master surgeon Bergeron, which lists all
his travels, the places where he went, the names
of his patients, the preparations he recommended,
the seignées and so on. This voluminous visitor's
book is extremely interesting, and tells us a great
deal about the treatment methods of the time.

All this is far too complicated to explain, and I
can only invite you to make an appointment to
put these books in your hands, so that you can see
for yourself what they really represent.

Take a good look at the photos and don't hesitate
to ask me for further information.

If you are interested, please do not hesitate to
make me a fair offer.
