Description

Very large dining room table with an exceptional top with scalloped edges and projecting corners. Elements in elm burl surrounded by a strip of light wood form geometric shapes alternating with the walnut. This quality table with a warm color is fitted with a knockout belt in stained beech, molded and decorated with sculptures depicting refined scrollwork. The legs, also in beech, are curved. The very rounded upper part is decorated with a large acanthus leaf. The feet end in "claw and ball" in pure Chippendale style. Thanks to its large size, this table easily fills a large room and can accommodate up to 12 people to enjoy convivial moments. With these two 1m20 extension possibilities you can accommodate up to 18 people. *********
Period: 1st part 20th Very good condition. Satin
