Blue glass vase

Dimensions : H. 21 ; D. at neck 7,5 (cm.)

France, late 18th or early 19th century

An elegant baluster vase with a high flared neck and a footed base. It shows the trace of the pontil at the base, a few bubbles and irregularities in the curve.

The teardrop shape and colour are reminiscent of the Manufacture du Creusot, from which we are presenting a similar bronze-mounted model.
