

Group Of Manifattura Dell'artiglio Vases

2 500 EUR

Period : 18th century

Condition : Très bon état

Material : Porcelain

Description

Group of five Delft vases, Manifattura Dell'Artiglio.

These vases, distinguished by their style and elegance, were designed to adorn fireplace mantels, giving a touch of refinement and class to home interiors.

The group of five vases, as per tradition, is designed to be arranged asymmetrically, underlining the principle of using odd numbers in furnishings. This not only creates visual harmony, but also adds a touch of interest and dynamics to the overall arrangement.
