Steps And Degrees

180 EUR

Period : 18th century
Condition : Etat d'usage
Material : Stone
Length : variable de 80 cm à 250 cm
Width : 25 cm à 35 cm
Height : 15/16 cm à 17/18 cm

Description

Dressing your garden with flights of stone steps only requires a little earthworks.
A few ideas and roll up your sleeves!
We sell all types of limestone or sandstone steps.
With variable lengths, it is easy to adapt the need to the elements encountered.
A simple slope, a slight difference in level is enough to install a few degrees of stone which will radically change the atmosphere and environment of your green spaces.
We sell our steps by the meter.
EUR150 per linear meter.
With a regular thickness of around 16/18 cm thick,
a little pebbles mixed with cement are enough to make the ground where you will install them more solid.
