Description

Pretty little art nouveau vase by Établissements Gallé, decorated with clematis. Made of multi-layered acid-etched glass. Very good original condition, note that the glass has a few bubbles, one of which is burst on the surface (on the inner perimeter at the top of the vase). This could be described as an "original defect", it is inherent to the manufacturing and in no way an accident. Art Nouveau period at the beginning of the 20th century. signed in relief in the decoration. Diameter at the neck: 3.3 cm, at the base 3.5 cm
