

Jewel - Micromosaic Bracelet - Filigree And Micromosaic

340 EUR

Period : 19th century

Condition : Très bon état

Material : Silver metal

Length : 21 cm

Width : 2,5 cm

Diameter : 1,5 cm (motif en micromosaïque)

Description

Filigree bracelet made up of 7 micromosaic cabochons in green, white and yellow-orange on a blue background composing a fine and precise pattern of three daisies gathered in the center of the decoration. The frame is made of silver metal showing no signs of wear. The clasp is clip. No shock or lack of material, just some very slight deformations of the watermark (photos). Probably Italian work from the end of the 19th century.
Weight: 30 gr.
