Description

Exceptional stacking tables from the 1960-ies with naive design, all 3 signed by hand "olivier".The smallest table is a square, the other two are rectangular design. The black lacquered iron frame with a height of 2cm is covered with a wooden plate on which in turn the yellow ceramic tiles(15x15cm) are glued on. The ocher yellow background was painted with horses, the various representations are naive and have a strong charisma, they are reminiscent of Chagall in their appearance.The black painting has a matte appearance, while the yellow tiles are glossy.The legs are square, the foot ends have round plastic foot caps.Also the dynamics within the tables so from one horse to several horses make the objects very lively.Very decorative side tables with an artistic touch.Dimensions:1) 30.5 cm x 30.5cm x
