Description

French Art Déco greyhound table lamp in silvered bronze on brown marble base 1930s

Greyhounds from the French Art Deco period as an expression of the luxurious lifestyle of that time.
The animals are in motion the marble base consisting of a straight rising part of beige-brown tones and a hilly part of taupe-white tones also picks up the dynamics of the sculpture.
For this object was made a lamp construction in patinated brass with 2 sockets.
The object stands perfectly in a frame, the narrow rectangular shade of bourette silk floats above the object.
Due to the small depth, the lamp is also very suitable for narrow furniture.
