Some white fold marks, a black mark at the bottom and a halo on the left curtain (photos 9 and 10) and a slight discoloration at the bottom left of the right curtain (see last photo); The valance has 2 water marks on the silk in the left half and brown marks on the flower band in the right half (see photos 7 and 8). These few defects (detailed to avoid surprises) are not noticed once the curtains are installed.

Very good resistance of the fabric. The luminosity and sparkle of this golden yellow alone would dress up a room.
