Napoleon Bronze Sculpture, 19th Century.

580 EUR

Period : 19th century

Condition : Parfait état

Material : Bronze

Width : 16

Height : 36

Depth : 17

Description

Bronze sculpture from the 19th century representing Napoleon I standing on the battlefield. Very interesting sculpture evoking the emperor on the scene of combat near a gun barrel and a drawing wheel, perhaps at Austerlitz or another place of his exploits. Note the quality of production and patina for this beautifully crafted work evoking in a very expressive way an episode of the Empire. Possibility of sending in France and throughout the world by professional carrier or by secure package.
