Description

Pair of "toad" style low chairs from the Napoleon III period.

The small seats are very comfortable and move very easily thanks to the casters fixed on the 4 legs.

Covered in Bordeaux red velvet, they have retained their beautiful trimmings with cords and pompoms.

Note on one of the seats, 2 small stains on the cover which are very barely visible (see photo).

The spring seat is in good condition, as is the horsehair backrest.

The dimensions of these heaters make them space-saving.
