Description

Beautiful Renaissance style glazed sideboard decorated with twists and angel faces. This buffet is in two parts. The lower part opens with two diamond-point leaves. The upper part is glazed (beautiful old bubbled glass). Twists topped with angel faces are present on both parts. The sides of the furniture are worked in diamonds. It rests on ball feet at the front and straight feet at the back. Our buffet is a very beautiful production from the second half of the 19th century made with certain much older elements (in particular for the lower part which has retained its original patina) and showing traces of wear (old galleries of xylophages , small wear etc...) giving a lot of authenticity and charm to this piece of furniture. Buffet is in very good house condition, dark patina.
