

## Collectible Cane With Automation System.

580 EUR

Period : 19th century

Condition : Bon état

Material : Painted wood

Length : 93cm

### Description

Collectible cane with automatic system with wooden pommel. The automaton represents the head of a facetious Moor, who sticks out his tongue and whose eyes roll back to change from brown to blue, when a push button located at the back of his skull is pressed. Dimensions of the pommel: 7.5cm x 5cm. Total dimension of the cane: 93cm.
