

Silver Torch, France 18th Century

1 400 EUR

Period : 18th century

Condition : Bon état

Material : Sterling silver

Diameter : 13,7 cm

Height : 22,6 cm

Description

Silver torch with overflowing hexagonal foot decorated with a crossbow and double fillet molding is extended by a bell-shaped umbilicus. A groove at the base of the navel allows the fallen wax to be collected. The lower hexagonal collar carries a shaft with six bare faces thinned towards the bottom ending, in its upper part, with a molded hexagonal ring, which supports the hexagonal socket underlined by a projection at the edge. Trace of coat of arms on the navel.
Louis Base diameter: 13.7 cm Weight: 510 gr In good condition Note: A 6 mm tear on the edge of the foot, no restorations or deformations, wax stains..
