Description

Exceptional set of bathroom accessories in chrome bronze and glass "Empire" model, in the style of Maison Baguès. Each accessory is richly decorated with palmettes and an imperial green flower-shaped cabochon in molded-pressed glass, embellished with a fine chrome flower-shaped cabochon finish. The tablet supports are held in place by two large screws whose head in the shape of a stylized flower is finely chiseled (see photo). Splendid model that remains very current and has not been published for years; a very beautiful material and careful finishes, very fine guilloché work. Some pieces have retained the original hand-written labels mentioning the model reference, one piece has kept the paper sticker on the House's green background (see photos).
