

Regulates "allegory Of The Harvest" Late 19th Century

100 EUR

Period : 19th century

Condition : Bon état

Material : Gilt bronze

Diameter : 9,7 cm

Height : 20 cm

Description

Golden regula representing a female character, in the style of the 18th century, leaning on a large sheaf of wheat and holding ears of corn in her raised apron. Beautiful original condition and beautiful patina of time, a very small loss at the top of the sheaf and a small slit at the back of the recessed leg (practically invisible). Probably, a pendulum element, later base. Shipping included for mainland France.
