Louis XIV Period Wrought Iron Balcony Railing

3 400 EUR

Period : 17th century

Condition : Très bon état

Material : Wrought iron

Length : 230 cm

Height : 99 cm

Depth : 42 cm

Description

Rare balcony railing forged in the 17th century, from the Louis XIV period, in perfect condition, from the historic center of Besançon. The baluster-shaped motifs are animated by a play of scrolls and crooks in symmetry, ringed and stapled, in their centers a pistil springs from embossed sheet metal leaves. Its slightly lowered sides enhance its facade. The sides, 42 cm deep plus 7 cm of sealing, have a height of 90 cm compared to 99 cm for the front. You can visit our site: www.claudeaugustin.com
