Description

Of good quality and details, here is a rare bronze incense burner. It rests on two circular feet with several evolutions, joined by stylized branches and trompe l'oeil of knots, joining the large circular incense holder cup. It is engraved on the edge with three unidentified characters.

Good general condition, a deformation of one of the feet prevents the object from being flat. The inside of both feet shows traces of white wax.

Indian working, antique and genuine, dating from the end of the 19th century.

Dimensions: 12cm H x 22cm.

Feet diameter 7cm. Cup diameter 10cm
