

## Small Piece Of Silver Jewelry

500 EUR

Period : 18th century

Condition : Très bon état

Material : Sterling silver

Diameter : 6 cm

Height : 9 cm

### Description

We present this small piece of silverwork from the 18th century with Farmers General hallmarks. In rococo form therefore from the Louis XV period. I don't know what this object was used for, we could have thought of an egg cup but too big to hold an egg (can anyone help me?). The upper part is supported by three dolphins. (Weight 81 gr) (E24)
