Description

Lovely Louis XV period chest of drawers in solid walnut and colored marble top. The front and sides are curved, it opens with two drawers on the front and rests on four arched legs, two doe feet on the front, the two rear legs rest on sculpted balls. The handles and keyholes are in bronze. This pretty chest of drawers is a regional piece of furniture, probably from the south of France. The whole thing is healthy and well preserved. I would like to point out an old restoration on the left of the bottom drawer and the left rear end of the foot was previously replaced (without impact) Height: 81.5cm Width: 113.5cm Depth: 66cm Contact me for transport in France and around the world
