Description

Lever earrings in 750/°° yellow gold (18 KT, owl hallmark) and silver. in two parts, with two sleepers supporting two pendants (not removable in this case, but mobile). A diamond in the center of the motif mounted in a tassel is also mobile.

The setting in silver, and the rose cut of the diamonds, make it a subtle, refined and non-ostentatious jewel, although their large size makes them very present...so these earrings can be worn every day, and on all occasions . The sleeper systems are, in keeping with the times, designed to be passed through the back of the ear and easy to handle since they are articulated.

Total weight of diamonds estimated at 0.45 ct

Total gross weight: 11.73 g Condition:

imperceptible micro-scratches on the metal parts,
natural inclusions in the diamonds not visible to
