Description

Elegant 19th Century Bronze Mirror from the Napoleon III Period This magnificent mirror is distinguished by its refined bronze covering, decorated with motifs of foliage, pearls and openwork plants. In the center, a flower button harmoniously connects the decorative elements on each side, adding a delicate floral touch to the whole. The upper part of the mirror is decorated with two Putti holding a draped garland of flowers, overlooked by an imposing flower vase. The mirror is beveled, from the 19th century, and is itself in good condition, with very few stains, just a dirty window effect. A fixed clip forming an integral part of the mirror is located at its top. A wire was added later. Dimensions: Total height: 57 cm Width: 37.5 cm
