| Description |
|-------------|

Abstract composition signed Jacques Englebert around 1960-1970. With the words on the back "Duet of the city and the evening". The work of Jacques Englebert includes an abstract geometric dimension in color/material behind which a symbolic universe nourishes the interpretation of the work. Here the moon and a few squares of light playing the pattern of the building? Plan for cleaning regarding some material lifting/shrinkage.
