Beautiful and imposing bronze set "Dogs on the lookout" by Michel Decoux. A beautiful signature for this animal bronze, very stylized by the art-deco period. Note the beautiful chocolate patina and especially the veined marble base of the same color which really enhances the whole. Good quality and good preservation of the patina. 60 cm long, 26 cm high, signed on the marble, referenced, circa 1920. Very beautiful art-deco set, very graphic.
