### Description

Mystery of the month!

Very important (life-size) marble carved screaming head;

Interpretation of wrathful Zeus?

19th century?

Very decorative with a lot of presence, more amusing than terrifying !

Marble looks like a red or pink sandstone, with gray and white veining or mottling.

Dimensions: 46cm height, 41cm depth and 36cm width approximately

Weight around 30/40kg

Very good condition, and beautiful patina.

The sculpture was found a few months ago  
semi-buried in the park of a 16th century manor  
in the Orléans forest (center of France), without  
its provenance or origin being known. Difficult to  
date and understand ! (I am really open to any  
proposal or idea about it)

The marble used doesn't correspond to a variety  
found french Center region either...
