

Nubian Pyrogen Abdo

245 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Diameter : 11 cm

Height : 12 cm

Description

Looking at mine, I think that the abs of this Nubian carrier are caricatures...otherwise, I'm depressed.... Anyway, this finely chiseled carrier has been plying his trade as a pyrogen since the end of the 19th century. The grainy side walls of its quiver serve as a scraper for the matches of the time. Anonymous subject, perhaps a bronze from Vienna.
