Description

Beautiful representation of Parisian life in the 19th century in Paris thanks to this animated view of the Place de la République, the heart of Paris. Note this very beautiful work on the light of Ile de France which has inspired so many painters. All layers of Parisian society are represented in this painting. The bourgeoisie, artisans, merchants are present in this painting, well highlighted by a gilded frame from the same period. It is signed lower right. canvas size only 50 x 66 Sending by us with tailor-made packaging and insurance.
