Description

A beautiful work, this scene of the Crucifixion in straw marquetry. Our medallion is surrounded by four rigorously symmetrical elements offering delicate and precise work of so-called Boule marquetry. This technique allows you to play with the specificities and richness of several materials, via careful cutting. Here in the same material but in a different shade which allows for interesting plays of light. The set benefits from a gilded and sculpted wooden frame with an elegant patina. Very good state. Dimensions of 35.5 cm by 30.
