Length : 2 cm ?

Diameter : 2,2 cm ?

Description

Memento Mori. Ring with carved carnelian in incussive shape, for seal. 18th or 19th century period mounted in sculpted silver. It is most likely a piece of a Masonic nature, so popular in the early years of the 19th century. The cut of the carnelian is well defined so that it leaves a sharp impression in the wax or sealing wax.
