Description

400 old doors and windows selected for their strong decorative power, including 200 glazed elements to provide light and reflections, the largest stock of glazed elements in France (no problem for their transport). Undeniably, these very beautiful, bright and proud glass doors reflect the serenity and peaceful feeling of this period called "The Belle Epoque" (from the end of the 19th century to 1914), a period marked by social, economic, technological and political progress. Numerous decorative possibilities : glass communication doors, orangery doors, outbuilding or workshop facade, fresh light, play of reflections and transparency in a large loft-type volume, etc. They are in a beautiful light oak and In very good shape. Very beautiful original ironwork. All glasses in place, stripped on both
